<p align="center">Design bots using Flowise</p>

Last amended: 22nd July, 2024
My folder: C:\Users\ashok\OneDrive\Documents\flowise

Table of Contents

A. Simple demo
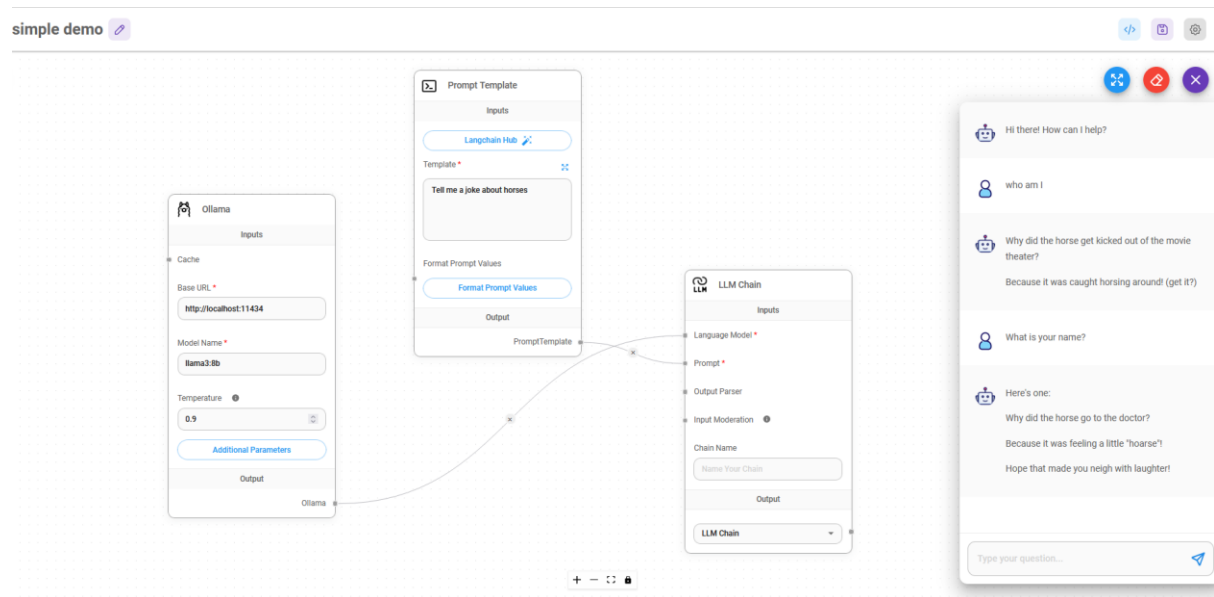

See this link on YouTube.

Figure 1: This bot will always answer your questions as a horse's joke. The only prompt is: Tell me a joke about horses.
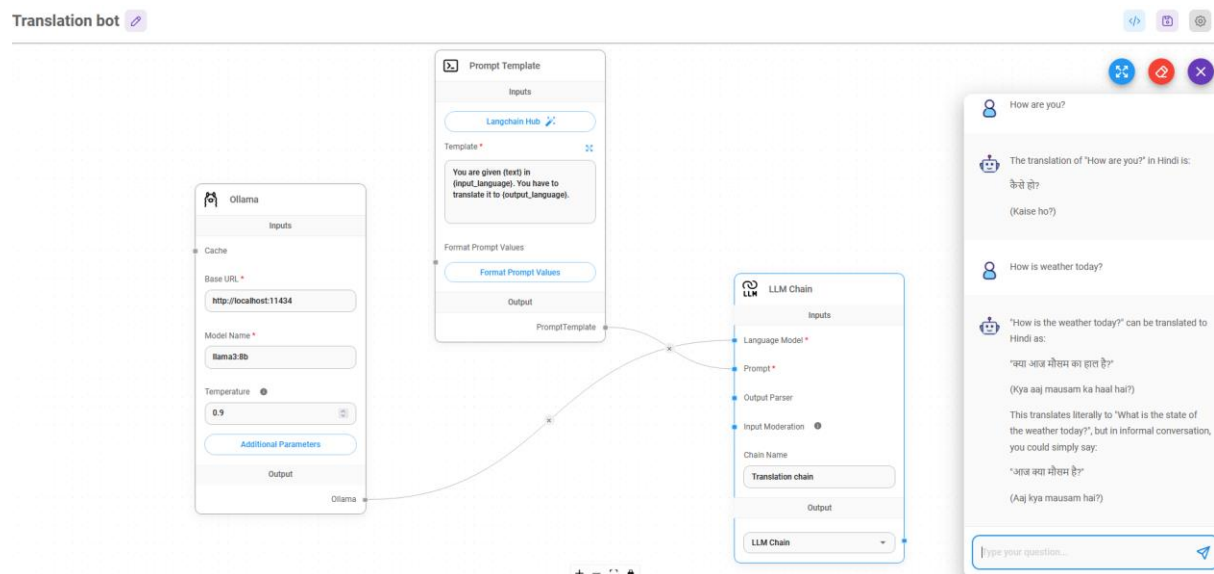

B. Translation bot:

Figure 2: This bot translates all your questions into the desired language.

Prompt Template is:

You are given {text} in {input_language}. You have to translate it to {output_language}.

And formatted template is as follows. Note the *text* pertains to user's question asked in the chat-bot.

*Figure 3: Translate question asked in English to Hindi*

C. Chat with llama:

Figure 4: The Ist question is just Hello but the IInd question asks more details about Captain referred to into the answer to Hello.

D. Export import chat flows:

Figure 5: In the Chat flows window, click on the down arrow besides the Options to Export a chat flow.
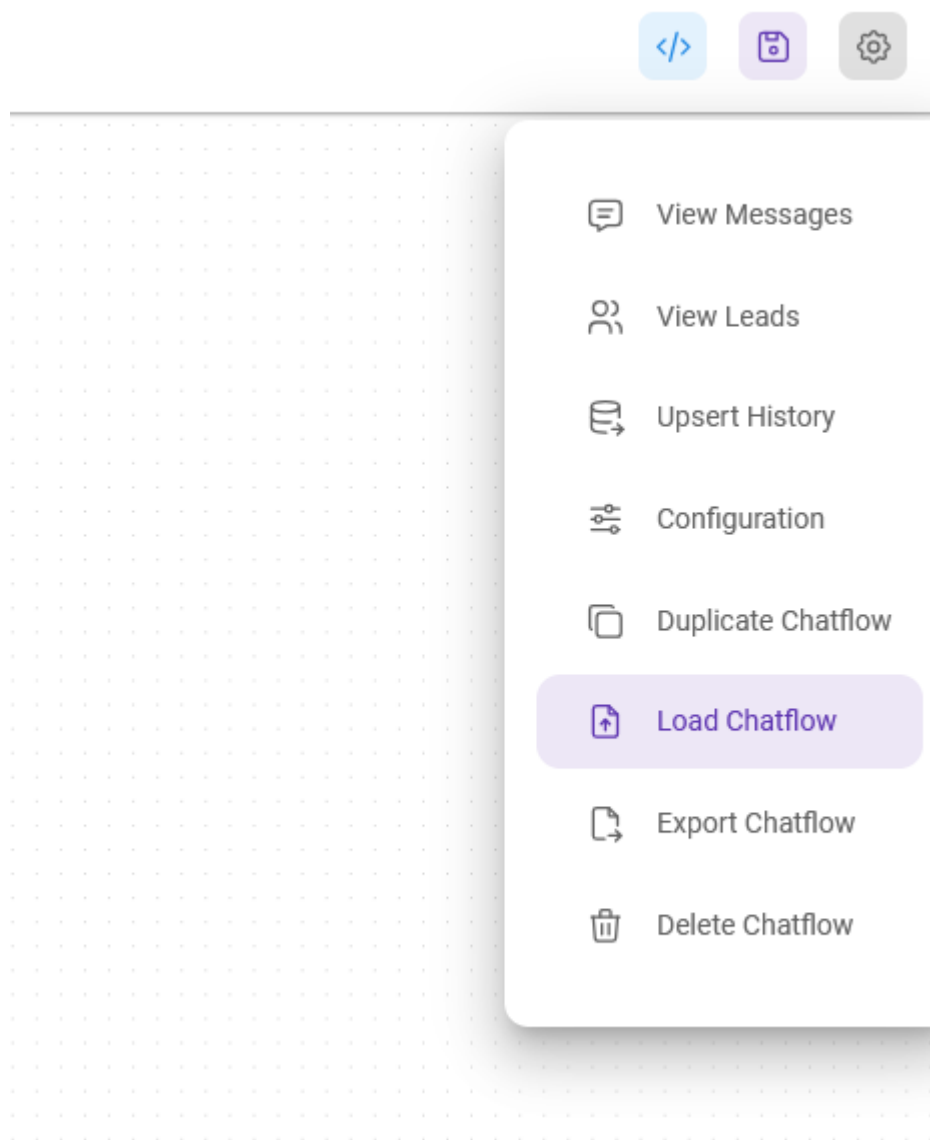

Figure 6: Click on Settings icon to import an exported chat flow (i.e. json file).
